

Technical drawing of a bridge structure, showing various profiles and dimensions. The drawing includes a side elevation of the bridge deck and truss structure, with dimensions in meters (m) and millimeters (mm). The bridge is divided into several sections, each labeled with a profile number and length.

Profiles and Dimensions:

- Profilo 1: 2UPN160 L=6054
- Profilo 2: 2UPN160 L=6074
- Profilo 2: 2UPN160 L=6074
- Profilo 3: 2UPN160 L=6074
- Profilo 4: 2UPN160 L=6074
- Profilo 5: 2UPN160 L=3894
- Profilo 6: 2UPN160 L=3934

Dimensions (m):

- 1204
- 6150
- 6100
- 6100
- 6100
- 6100
- 3920
- 4030

[illegible][illegible]

Technical drawing of a long, narrow rectangular object, likely a metal plate or pipe, showing dimensions and hole patterns. The total length is 6074. The drawing includes a top view with dimensions (30, 65, 302, 120, 203, 500, 207, 65, 30) and a side view showing hole diameters (Ø13, Ø17) and hole spacing (4, 77).

[illegible]

Technical drawing of a 3894mm long profile. The drawing shows a top and bottom view with dimensions and hole locations. The total length is 3894mm. Key dimensions include 30, 65, 85, 287, 500, and 77. Holes are labeled with diameters: $\varnothing 13$ and $\varnothing 17$. The drawing includes a scale bar and a north arrow.

[illegible][illegible]

Technical drawing of a 3994mm long profile. The drawing shows a top view with dimensions and hole specifications. The total length is 3994mm. The profile has a width of 30mm. The distance between the first and second hole is 65mm. The distance between the second and third hole is 380mm. The distance between the third and fourth hole is 500mm. The distance between the fourth and fifth hole is 500mm. The distance between the fifth and sixth hole is 500mm. The distance between the sixth and seventh hole is 500mm. The distance between the seventh and eighth hole is 380mm. The distance between the eighth and ninth hole is 96mm. The distance between the ninth and tenth hole is 96mm. The distance between the tenth and eleventh hole is 283mm. The distance between the eleventh and twelfth hole is 283mm. The distance between the twelfth and thirteenth hole is 65mm. The distance between the thirteenth and fourteenth hole is 30mm. The profile has a thickness of 4mm. The holes are specified as Ø13 and Ø11. The drawing includes a scale bar and a title block.

Technical drawing of a bridge structure, showing various profiles and dimensions. The drawing includes a top view of the bridge deck with several truss-like structures (profiles) and a bottom view showing the bridge piers and spans. The profiles are labeled as follows:

- Profilo 9: 2UPN160 L=6054
- Profilo 10: 2UPN160 L=6074
- Profilo 10: 2UPN160 L=6074
- Profilo 11: 2UPN160 L=6074
- Profilo 4: 2UPN160 L=6074 (VEDI ALLINEAMENTO B)
- Profilo 5: 2UPN160 L=3894 (VEDI ALLINEAMENTO B)
- Profilo 12: 2UPN160 L=3934

The dimensions are indicated by arrows and numbers below the profiles:

- 1204
- 6150
- 6100
- 6100
- 6100
- 6100
- 6100
- 3920
- 4030

OPERAZIONI ESECUTIVE

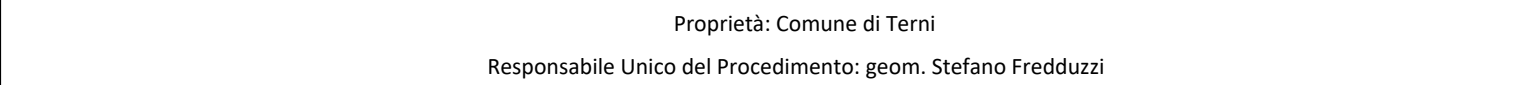

Gli atti dovranno essere verificati e stabiliti in opera d'intesa con la D.L.

Esecuzione dei getti per i cavi per i cavi:

- Tutti i getti vanno accuratamente vibrati; per favorire la penetrazione nei casseri utilizzare un vibratore ad ago Ø60 mm fino ad affioramento della bollica.
- La maturazione umida delle superfici non cesserà di essere garantita mediante foglio bagnatura del getto in fase di presa.
- Quanti i getti maturano in atto le cautele necessarie ad evitare la segregazione; in particolare evitare di eseguire getti ad altezze elevate.
- In ogni fase di getto deve essere raccolta adeguata campionario secondo le indicazioni della D.L.

Sovrapposizione delle armature metalliche:

- Piegatura barre di armatura
- Diametro minimo del mandrino Ø barra < 16 mm Ø = 40
Ø barra > 16 mm Ø = 70
- Piegatura staffe
- Assemblaggio dei bulloni
- Rondella piatte
- Chiuso essendo
- Vite
- Pin Paint
- Assemblato
